

Ultrafreezer 240

Ultrafreezer 440

Ultrafreezer 660

Ultrafreezer 240, 440, 660

Structure: upright type, realized in sheet steel painted white colour (rust and corrosion proof) outside and stainless steel inside

Door with stainless steel hinge, safety key-locked, triple rubber scentless gasket for maximum tightness.

Insulation: foamed polyurethane injected at very high density.

Internal equipment: 4 compartments with 4 hinged inner doors (to avoid air-old loss at external door opening) realized in stainless steel and 3 stainless steel storage shelves

Refrigeration: static, thanks to the evaporator copper pipes foamed in the insulation in all the 4 sides and the bottom, the temperature uniformity is granted

Alarm system: visual and acoustic self-supplied with automatic recharge circuit and the possibility of adjusting the intervention point (for power failure, temperature deviation, discharged battery, open door after 30 seconds, for condenser temperature too high)

Options:

Temperature chart recorder on weekly rotation disc

Emergency system by liquid Co2

Storage rack and storage box

| Technical Data | Mod.240 | Mod.440 | Mod.660 |
|----------------|---------|---------|---------|
